

Acoustic Solutions
for Modern Interiors

Opus Acoustics is a specialized division of **Opus Interiors & Exteriors**, focused on delivering high-performance acoustic solutions for modern architectural spaces. Backed by global manufacturing partnerships and strong design expertise, we provide innovative sound control systems that combine technical performance with refined aesthetics.

AcouMAX

Polyester Fibre Acoustic Panel

AcouMAX polyester fiber acoustic panels are lightweight, sound-absorbing panels made from 100% polyester fiber with high recycled content. Safe, eco-friendly, and available in multiple densities and thicknesses, they are ideal for flexible and creative interior acoustic solutions.

AcouMAX

Plain Panel

**Grooved
Design
Panel**

Linear Grooved Panel

Design Grooved Panel

AcouMAX carved panels can be ceiling hung using cables or rods, wall-mounted on most surfaces including glass, or fixed to T-grid ceilings with compatible clips. Panels can also be installed directly using glue or gun nails, offering flexible and easy installation options.

AcouMAX

Acoustic 3D Panels

Eco-friendly acoustic panels made from recycled PET, designed to reduce echo while adding a bold 3D visual appeal. Lightweight, durable, and non-toxic, available in multiple patterns, colours, and thicknesses—ideal for modern commercial and hospitality spaces.

AcouMAX

Baffles Ceiling

High-density PET acoustic baffles designed to reduce echo and reverberation in large spaces. Made from eco-friendly recycled PET, they are lightweight, durable, and non-toxic. Available in multiple sizes, shapes, and colours—ideal for offices, auditoriums, schools, and commercial interiors.

AcouMAX

Cloud Ceiling

Suspended PET acoustic panels designed to reduce noise and echo in open ceilings. Made from recycled PET fibre, they are lightweight, durable, and eco-friendly. Available in various shapes, colours, and thicknesses for flexible, modern interior designs.

AcouMAX

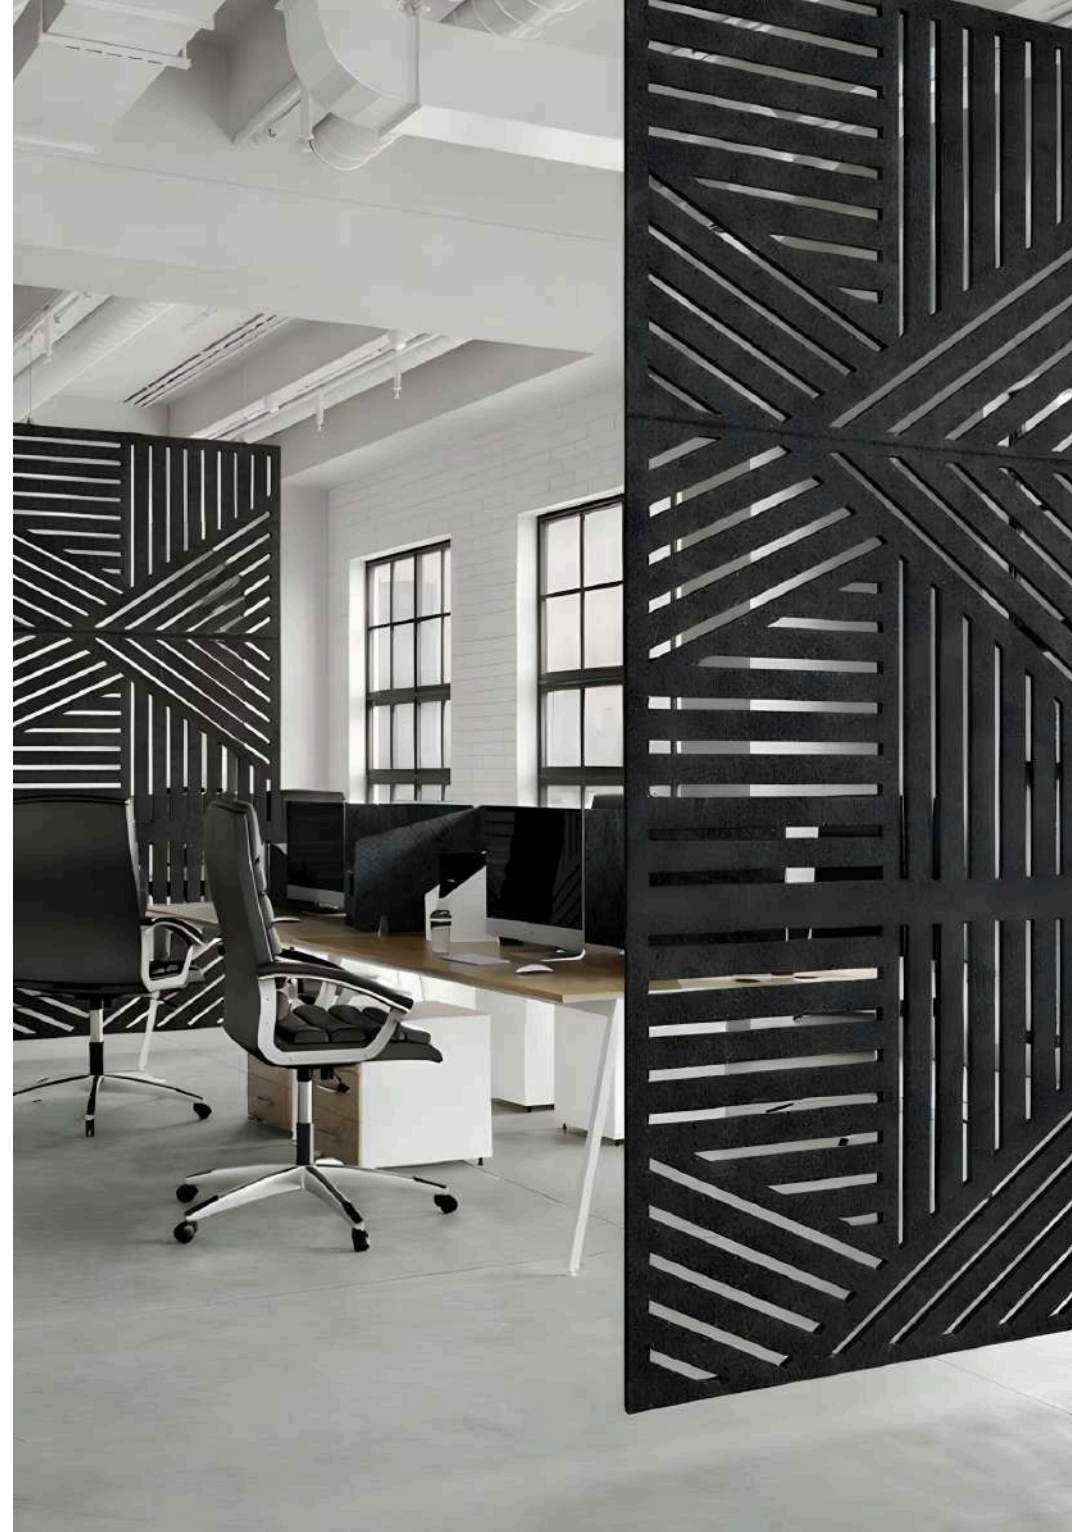

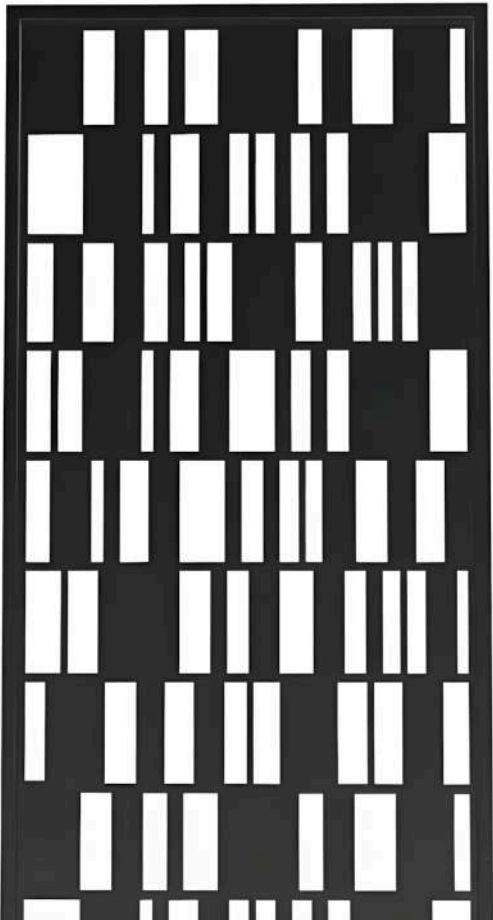

Hexagonal Ceiling

Suspended PET acoustic panels designed to reduce noise and echo in open ceilings. Made from recycled PET fibre, they are lightweight, durable, and eco-friendly. Available in various shapes, colours, and hicknesses for flexible, modern interior designs.

AcouMAX

Screen Partition

Acoustic screen partitions designed to reduce noise and enhance privacy in open and shared spaces. Made from high-performance PET fibre, they absorb sound while maintaining a clean, modern look. Lightweight, durable, and eco-friendly, available in various sizes, colours, and configurations—ideal for offices, coworking spaces, and commercial interiors.

AcouMAX

Desk Partition

High-density PET desk partitions designed to reduce noise and improve privacy in open offices. Made from recycled PET fibre, they are lightweight, durable, and eco-friendly. Easy to install with metal clips and available in multiple sizes, colours, and thicknesses for seamless integration into modern workspaces.

AcouMAX

Acoustic Phone Booth

A compact, sound-insulated booth for private calls and focused work. Designed to reduce external noise and echo, it offers comfort and privacy in open offices and commercial spaces.
